South-West Long Beach Community Planning Bulletin

City of Long Beach ■ Department of Planning and Building
Community and Environmental Planning Division
www.longbeach.gov/plan/pb/cpd

The City of Long Beach is divided into five planning areas with a Community Planner assigned to each geographic area. This monthly bulletin is compiled by your community planner as a forum to update citizens on new developments and neighborhood issues as a way of keeping citizens involved in the planning process. Please contact Jerry Olivera, South-West Long Beach Community Planner, at (562) 570-5081 or via email at jeolive@longbeach.gov if you have questions about this bulletin.

This bulletin is also available on the internet at:

NEW DEVELOPMENT APPLICATIONS

No new complete development applications requiring discretionary review were submitted during the month of May.

PREVIOUSLY REPORTED DEVELOPMENT APPLICATIONS

1. Condominium Conversion – 1062 E. 2nd Street

This applicant is requesting to convert an existing 7 unit rental apartment building to ownership condominium units. The project will provide 9 individual, off-street parking spaces (a minimum of 9 spaces are required). There are no unusual zoning issues associated with this project.

The Planning Commission approved this project at their regularly scheduled meeting of June 1, 2006.

1. Conditional Use Permit, Standards Variance, Site Plan Review - 1630 14th Street

This applicant is requesting to replace an existing church with a new church structure and to redesign the site to provide a more functional floor plan and parking spaces where none currently exist. The church is located in an R-2 residential zone and has been in operation since 1924. A CUP is required for churches in residential zones and a Standards Variance is required since the applicant wishes to maintain an existing front yard setback of 7'-11" on a portion of the new building (a minimum front setback of 15' is required) and increase the maximum height to approximately 30' (a maximum of 25' is allowed). There are currently no off-street parking spaces provided and the applicant is proposing to add seven parking spaces on site as well as utilize off-site parking at a nearby business.

The Planning Commission **Public Hearing** has been rescheduled for July 6, 2006 at 1:30 p.m. in the Council Chambers at City Hall. Written comments may be addressed to the Long Beach City Planning Commission, c/o Carolyn Bihn, Zoning Administrator, 333 West Ocean Boulevard, Long Beach, CA 90802.

2. Site Plan Review – 1570 Long Beach Boulevard

A mixed use development consisting of 36 condominium units above approximately 10,000 square feet of commercial retail space and approximately 143 parking stalls is being proposed for this site. In its present configuration, the project provides more parking than is required by code.

An initial review of this project shows that there are still some issues that need to be worked out, including: Lack of private and common open space for the residential units; lack of recreation facilities for residents; and other design and configuration issues.

No new information or updates have become available since this item was last reported on. Additional details will follow as they become available.

3. Conceptual Site Plan Review – 1332 Locust Avenue

A 9-story, mixed use development consisting of approximately 221 condominium units (1 & 2 bedroom) over approximately 15,000 square feet of commercial retail space. Submitted plans show approximately 472 parking stalls provided, a further review will determine if this is adequate parking based on the ultimate configuration of dwelling units and total area of retail space. Because of the project's proximity to light rail and other transit, a reduction in parking may be supportable but since this proposal is only in the conceptual stage, there are still several details that will need to be worked out, including: parking, open space requirements, amount of commercial space, location of commercial space, etc.

No new information or updates have become available since this item was last reported on. Additional details will follow as they become available.

4. Site Plan Review; Standards Variance; Subdivision Map; and Lot Merger at 1223-1227 Long Beach Boulevard (Case #0510-02)

A mixed use development consisting of 51 condominium units; 3,103 square feet of retail/restaurant uses; and a 2 ½ level semi-subterranean parking structure of 161 stalls is being proposed for this site. A standards variance is required for the porches/terraces of the units that front Long Beach Boulevard since they are located above grade. A minimum 5' setback is required; the applicant is requesting 3'. In addition, a Subdivision Map is required to allow condominium units and a Lot Merger is required since the proposed project will encompass several legal existing lots.

The Planning Commission **Public Hearing** is tentatively scheduled for **June 15, 2006** at 1:30 p.m. in the Council Chambers at City Hall. Written comments may be addressed to the Long Beach City Planning Commission, c/o Carolyn Bihn, Zoning Administrator, 333 West Ocean Boulevard, Long Beach, CA 90802

ANNOUNCEMENTS

1. Long Beach General Plan Update: Land Use and Mobility Elements.

PHASE II BEGINS

With the completion of the first phase of our General Plan Update Program (GPUP), the City Planning Bureau is now undertaking Phase II. In Phase I we created five geographically distinct Community Cluster Advisory Teams reflective of the five Community Planning Areas in the City. With these groups of highly motivated volunteers we held a series of meetings to begin exploring baseline data on the status of the community (e.g., demographics, land use, economics and mobility) and to solicit input on desirable policies and patterns for the future development of the City. Although not everyone agreed on every aspect of how the City should continue to develop, each group was able to reach a general consensus and produce a basic outline of a plan direction for future community development discussions.

In Phase II of the General Plan update our intention is to share the work completed in Phase I with the entire community and to build upon its precepts. We are currently in the process of securing a highly qualified advisor to help us craft a Long Beach centric, community-wide, educational outreach campaign. This next portion of the GPUP will be designed to bring everyone in the community up-to-speed on the challenges facing Long Beach now and in the next 20-25 years. We will be widely distributing the baseline data discussed above along with an analysis of the implications this information holds for our future.

This spring (2006), staff will begin working with our outreach specialist to create additional materials to support our community education efforts. Once these educational pieces are crafted we will be using them to launch our citywide educational outreach portion of the program. Our intention is to cast a wide net, to blanket the City's constituents with as much background information as possible. We need to raise the level of awareness of the General Plan Update Program, letting people know what the General Plan is and why it is important. Along these lines we will do our best to educate interested parties so that we are working with a well-informed public. Community Planners will be supporting this outreach campaign by asking for any ideas you may have to support our outreach efforts, as well as keeping our community contacts informed of the progress in updating the City's comprehensive General Plan.

Maps, demographic information, reports, documents, committee cluster input, and other information is available online at the General Plan Update website:

http://www.longbeach.gov/apps/advance_plan/index.html

3. Invitation from American Red Cross (GLBC) and LB Fire Dept. to learn CPR

CPR Saturday - On Saturday, June 10, from 8:00am – 4:00pm, the Greater Long Beach Chapter of the American Red Cross (GLBC) and the Long Beach Fire Department (LBFD) will partner for the eleventh time to host low-cost CPR courses for the masses. Pre-registration is open now through June 2. Classes are \$5.00 during pre-registration or \$15.00 at the door. CPR courses run throughout the day and may last up to four hours. The event will include a **free** health and preparedness expo. All CPR Saturday activities will be held at the Long Beach City College – Pacific Coast Campus. To enroll for a CPR Saturday course or to find out more about the event, please call the GLBC directly at 562-490-4035 or visit www.greaterlongbeachrc.org If you'd like to participate as a vendor for the health expo or want more details regarding this event, you can also contact Jeanette Jones at 562-595-6341 ext 239 or via email at jonesjea@usa.redcross.org

4. Invitation from Community Development to Redevelopment Agency Town Hall Monday, June 19, 2006, 6:30 p.m. @ The Grand

Dear Neighborhood Leader:

As you know, the mission of the Redevelopment Agency of Long Beach is to improve communities, eliminate blight, build affordable housing, and spur economic growth through commercial developments. We rely on residents such as yourself to give us feedback on the work we do and also to keep us informed of specific issues or concerns that you have in your community. Whether or not we live in a Redevelopment Project Area, we are all affected by redevelopment projects, which means we all need to have a voice in the process.

With that in mind, I would like to personally invite you and your members to join us on Monday June 19th, as Mayor Beverly O'Neill hosts the First Annual Redevelopment Agency Town Hall Event from 6:30-8:00 p.m. at The Grand Long Beach Event Center in Long Beach. This very special evening will give residents an opportunity to discuss the future of development in Long Beach and provide an opportunity to address issues and concerns they have in their own communities.

The highlight of the evening will be a panel discussion made up of a diverse group of Long Beach leaders discussing with the audience the future of development in Long Beach.

Please join us and also help us get the word out to everyone in the city!

Free parking, food and drinks will be provided. The Grand Long Beach Event Center is located at 4101 E. Willow Street in Long Beach. It is also accessible by Long Beach Transit. For more information go to www.longbeach.gov or contact Mary Nemick at 562-570-6316 or mary_nemick@longbeach.gov

5. A message from Parks, Recreation and Marine: Block Party Permits

Throwing a summer block party?

Block parties are an American tradition. And every summer here in Long Beach there are hundreds of these neighborhood gatherings. But what you may not know is that you are required by law to have a Block Party Permit. Why? Simple, in case of an emergency our Fire and Police Departments need to know ahead-of-time if any streets in our City are blocked off. So please get a Block Party Permit. Getting the permit is easy – just call 562-570-5333, or email Robert_Earl@longbeach.gov

6. Distinguished Arts Awards - Deadline July 6, 2006!!

Arts Council for Long Beach

2006 DISTINGUISHED ARTS AWARDS

Nominations due by Thursday, July 6, 2006!!

Each year Arts Council for Long Beach honors three exemplary people or organizations who have contributed significantly to the Arts in Long Beach. Local artists, arts professionals and arts volunteers are invited to nominate three people or organizations (one in each category). Award recipients are honored at Arts Council for Long Beach's Annual *State of the Arts Luncheon* in September. These non-monetary awards are bestowed in recognition of excellence, devotion and community contribution.

Categories of Distinguished Arts Awards

1. Distinguished Artist of the Year Award

2. Distinguished Arts Leadership Award (Professional)

3. Distinguished Arts Patron or Volunteer Award

Nomination forms and a list of past award recipients are available at www.artslb.org For more information, contact Elena Arrojo at the Arts Council for Long Beach at (562) 432-5100, ext. 237 or at elena@artslb.org
